

Skid Steer Leveling Bar

Features

- Standard size 78", custom size available
- Constructed from two 3/4" x 6" hardened cutting edges one in front and one in the back of the leveling bar
- Frame constructed with 2" x 4" and 2" x 2" tubing
- A 2-1/2 x 2-1/2" x 3/8" angle iron is welded in the center 1" higher than the cutting edge which causes the dirt to roll
- A step is welded on for easy access
- Universal mounting brackets
- Lift tabs are welded on frame so attachment can be easily moved or carried with a bucket
- 450 pounds
- Uses include: landscaping, driveways, parking lots, concrete work & more...
