

# Platform Sidewinder

Quick Attach Work Platform with 180 Degrees of Articulation

## Features

- 4' x 116" work platform made to meet OSHA/ANSI/ITSDF standards
- Work Platform has 2000 lb. load capacity
- Swing gate access at both ends of work platform
- Heavy duty expanded metal floor for years of use
- Safety restraint tie down bars standard on work platform
- Safety pins secure railings and doors for added protection
- Collapsible for easy transport and storage
- Full 180 degrees of articulation (very smooth left and right swing for workers stability)
- Articulation adds versatility to your telehandler to maximize ROI
- Get into tight spots with materials and workers- no need to rent a boom lift
- Run parallel to work surface, cuts down on repositioning of lift- saves time and money
- Left and right swing controlled by auxiliary hydraulics joystick in the forklift cab
- Customized mounting plates to match your telehandler
- Hand pumped units available for extra charge on lifts with no auxiliary hydraulics
